M&R COMPANIES

Project Snapshot

Customer: M&R Companies

Building type(s): Private, Industrial

Measure Implemented: Lighting

Total Project Cost: \$82,162

Incentives Acquired: \$36,200.80

Wattage Reduced: 89,957

Yearly Electric Savings: \$56,133.17

Payback Period: 8 months

Project Overview

Due to a harsh economic background and tight budget, this facility was looking to cut costs. One of the easiest and most cost effective ways to cut these unnecessary costs is by replacing old lighting technology. Old Metal Halide lighting loses about 50% of its light output over the life of the lamp, while consuming the same amount of wattage. By replacing those old systems, the customer was able to enjoy superior lighting at a fraction of the wattage.

Benefits

1. Twin Supplies performed a free energy audit for the facility.
2. Twin Supplies handled all grant paperwork free of charge for the customer.
3. Twin Supplies was accommodating in regard to the customer's work schedule – completing the project in a timely manner.
4. Twin Supplies waited for the incentives to be paid to the customer before collecting the \$36,200.80 owed.
